Perceived Risk from Unintentional Exposures to Environmental Contaminants

Wednesday, March 10th, 2010

4:00 PM

3rd Floor, Auditorium C

LHSC – University Hospital

**Also Available via videoconference
(Contact Julie Brown ext. 33553 for more details)**

This event is an Accredited Group Learning Activity (section 1) as defined by the Maintenance of Certification (MOC) Program of the Royal College of Physicians and Surgeons of Canada. Attendance will be taken.

Julie Brown ext 33553

Objectives:

1. To review the role of risk perception in environmental health research
2. To present a case study that illustrates the impacts of perceived risk of chemical exposure on Indigenous health
3. To discuss ongoing research on the development of an alternative qualitative research model for assessing health risk perception and its application in environmental health assessment and risk communication
